How to relieve tense nervous HEADACHES

ANADIN Relieves Pain Fast
*
Releases Pressure
*
Eases Tension

HOW THESE HEADACHES START
Many headaches start somewhere you'd never suspect—in the muscles of the back of the neck and scalp. When you get "nervy" these muscles tighten up, causing pressure on nerve endings and stop blood vessels and resulting in pain. In turn the pain holds up more tightness, more pain-pain and makes your headache worse.

HOW ANADIN RELIEVES NERVOUS HEADACHES
The special Anadin formula goes straight to the root of the trouble, by soothing nerves and relaxing the muscles as well as relieving pain. Anadin helps you to drive off depression too—leaves you calm, cheerful, relaxed. Always insist on 'Anadin' Tablets.

Nothing acts faster than ANADIN
